(54) CONTROLLABLE GUIDE FOR PAD FOR PEDAL ARM

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a controllable pedal assembly for vehicle, with which a pedal pad is located, capable of controlling a distance from a pedal arm.

SOLUTION: Concerning the controllable pedal assembly for vehicle having plural screw members (30, 130, 32, 132, 42, and 142) linked by screws for controlling the positions of pedal pads (20 and 120) along with a control axis line A in respect to pedal arms (14 and 114), this guide is provided with first nest elements (24 and 124) and second nest elements (26 and 126) mutually engaged while sliding along with a nesting type axis line to be linked to the pedal pads (20 and 120) and the pedal arms (14 and 114) for stabilizing the movement of the pedal pads (20 and 120) along with the control axis line A in respect to the pedal arms (14 and 114).
